# BECAUSE, IT TAKES A LEARNER

To inspire a child to be a lifelong learner  
takes more than words, promises or ambition,

It needs a school that diligently believes in the art and science of learning  
And that's who we are - passionate learners of the subject of learning.

We explore hundreds of books before drawing lessons in our children's notebooks,  
experiment with several architectural designs before planning any seating for our  
children in their classrooms, study the old ways of storytelling to choose the best of the  
contemporary and still find a way to go beyond it.

After all, learning is a lifelong process.  
And it takes something extraordinary to spark it in you.

IT TAKES A LEARNER  
TO INSPIRE ANOTHER
